To: norsaremah@iium.edu.my

Assalamualaikum Dr. Norsaremah Salleh,

I hope you are doing well. **Dr. Abdul Rehman Gilal** recommended your kind profile to me, as I am applying for the Master by Research program at IIUM and wanted to reach out for funded opportunities at your lab or projects you are working on to support my studies in Malaysia.

My interests focus on **Artificial Intelligence, Computer Vision, Deep Learning, and Hallucination in LLMs.**

I also bring expertise in developing production-ready AI/ML and Generative AI solutions and deploying and monitoring them on AWS.

My latest projects are listed here: <https://github.com/abdulsgilal579>  
Portfolio website: [abdulsgilal.com](https://abdulsgilal.com) (You can chat with my AI Assistant there.)

With this experience, I believe I can contribute meaningfully to your lab's research environment. I have attached my resume for your reference.

Thanks for your time and consideration.

Kind regards,  
Abdul Samad Gilal

Wa'alaikumussalam Abdul Samad,

Thank you for reaching out and for your interest in pursuing MS by Research at IIUM. My research focuses on empirical software engineering, particularly the intersection of SE and AI, like developer-AI collaboration models. Another ongoing research area is applying NLP to generate test cases for cross-platform mobile applications. If your interests align with this area, I would be happy to supervise you, insha'Allah. To support the research work, let me check with RMC if I can hire you as another GRA.

Regards,

Thank you very much, Dr. Norsaremah Salleh, for your kind and encouraging response.

Both of your research areas align closely with my background, but the NLP direction is particularly compelling to me because, as a developer, I use Claude a lot and I notice it going off the road sometimes. This is a solid research area to pursue.

I built CRUD applications calling APIs and databases using Flutter during my undergrad semester course; we can use this experience in our cross-platform application testing work.

Thank you also for checking with the RMC regarding the potential GRA position. I would be deeply grateful for the opportunity to contribute to your research team in that capacity.

Kind regards,

Abdul Samad Gilal
